window shading/room dividers

LOUVOLITE

WHAT'S YOUR STYLE?

the panel blind collection

Panel blinds are an ideal choice for those who want to make an impact and add something a little different to their interior design scheme. With their flexible nature, not only do Panel Blinds make a sleek window decoration for larger windows, bi-fold or patio doors but they also make stunning room dividers.

LET'S CREATE your space

Transform your space for modern living with chic and stylish panel blinds.

A versatile and contemporary way to control light, glare and privacy, panel blinds provide an innovative shading solution for larger windows and patio doors.

When open, the panels stack neatly behind one another allowing maximum light to enter the room. Sliding the panels into the closed position creates a unique fabric screen that provides light control and privacy.

Panel blinds make stunning room dividers that can be used to great effect in creating new living spaces within a modern home.

Designed not only to be long lasting and look beautiful, Panel blinds are also energy efficient, reducing solar gain during the summer months and helping to insulate your home through the winter.

*play with patterned & plain fabrics to create a
bespoke and stylish feature in your home*

A woman with voluminous curly brown hair is sitting on a grey sofa with yellow cushions. She is wearing a white tank top and white pants, smiling at the camera with her hand near her chin. Behind her is a window with blinds featuring a repeating herringbone pattern. To the right, another window has a similar patterned blind with a vertical black stripe. The room is brightly lit, and a framed picture is visible on the wall to the left.

*Helping to reduce
hayfever symptoms
with*

pollerģen[®]

Louvolite has created a unique fabric treatment which can help relieve hayfever symptoms, it's called Pollergen[®] and is backed by Allergy UK's seal of approval.

The active ingredient in all Pollergen[®] fabrics captures and then neutralises the pollen, thereby helping to reduce the effects of hayfever.

All Pollergen[®] treated fabrics can be washed or wiped down as the active formulation continuously migrates to the surface of the fabric for continued protection.

So when selecting your new blinds, make Pollergen[®] your fabric choice.

A new way of
WINDOW DRESSING

PICTURE PERFECT

it's good to be home

The versatility of panel blinds creates a fantastic option when considering new blinds for your home. Whether it be a plain, pattern, print or textured fabric, with such a multitude of styles you really will be spoilt for choice.

You can choose either a side or split draw panel blind to perfectly suit your windows requirements or mix and match fabric colours and textures to create an eye catching statement in your home, whatever you require we've got it covered.

All our blinds are of course child safe and the panel blind is another example of this, we recommend the wand control giving you complete piece of mind in a chic, efficient and sophisticated way.

Many of our fabric ranges are also available as roller, roman and vertical blinds to give you perfect coordination throughout your home.

So be inspired and create your transformation today.
